Editor's note: This article was originally published in August 2009, and has been updated as needed for accuracy. Once you've found a viable drawing you can optimize, editing tools allow you to clean up and refine the drawing. To find tools for optimizing and refining a drawing in AutoCAD, you can: Use the AutoCAD ribbon, Open the ribbon dialog box and search for the editing tools, or Search for and find the tools from within the drawing window. The ribbon The AutoCAD ribbon contains a toolbar and multiple palettes that can be displayed or hidden using the View Menu, listed on page 34. The ribbon itself cannot be collapsed or expanded. You can, however, enlarge the ribbon toolbar so that more of the toolbar is visible. You can navigate through the ribbon using the menus, as described below. Displaying the ribbon in AutoCAD 2008 or later Double-click anywhere on the drawing canvas to open the ribbon. or to open the ribbon. Do You Yahoo!? Yahoo! Shopping - Thousands of Stores. Millions of Products. if you only had three minutes to show a startup how you plan to use it, you'd struggle. Unless you have a video to back it up. This is where a startup that has some startup capital to spend will want to try out Snapchat, the self-destructing messaging app that has been growing in popularity ever since it hit the big time. While I'm not a Snapchat user myself, many of my network are. And I've watched a lot of others who have used it – from long-haul flights to Silicon Valley – struggle with this app that seems to work on a subconscious level. The beauty of Snapchat is its simplicity. You can send someone a single image or a single text. You can also write on a whiteboard. And it's just nice to have some visual proof that you sent a message. Getting your startup on Snapchat won't be easy, but there are a couple of ways you can start to go about it. And if you're not prepared to take the plunge, there's a good chance your friends will end up doing it for you. If you're a startup founder, you can get some advice on how to start using Snapchat from the people who've been there before. 5 ways to use Snapchat Snapchat Stories All of Snapchat's features are wrapped up in the app. The best way to start using it is through Snapchat Stories. The app has a clever way of showing you the best moments you've taken on it. You can sync it to your phone's photo library. And even though Snapchat has self-destructed, if you're not careful, you can accidentally screenshot your Snapchat Stories. There are a couple of ways you can edit your Snapchat Story, or add a Snap. Snapchat has launched a web editor, too. But it doesn't
