Free Keylogger Platinum [March-2022]

KeyMACRO is the easiest, safest and most reliable tool for recording all keystrokes from one computer. KeyMACRO is

---

invisible so that it does not intrude into your work or web browsing sessions and does not pollute the keystroke events.

KeyMACRO also features a sound recording function. KeyMACRO records each keystroke as a highly compressed

Keyword and stores it along with timestamp and a multimedia description.

KeyMACRO records mouse and cursor positions and mouse clicks as well.

KeyMACRO is designed to capture a wide range of applications and websites.

KeyMACRO can capture up to 20 Keywords simultaneously. KeyMACRO can capture the following data: Website URL/Page Title/Date and Time of page request, page title, and description/content

---

of page as well as every keystroke, mouse click and screen position on screen.

KeyMACRO stores data for up to 14 days and has a built-in scheduler. KeyMACRO supports auto-start when you log in to the computer. It records the keystrokes for 14 days without you having to do anything.

Once it is activated, KeyMACRO will run automatically when you log in to your computer. KeyMACRO does not interfere with any of your applications so you can keep working without being distracted.

KeyMACRO is powerful, easy to use and free. What more do you want?

KeyMACRO is a free Windows utility that supports all versions of Windows

2000/XP/Vista/2008/7/8/10 KeyMACRO

---

supports Windows Server 2003/2008

KeyMACRO supports MAC OS X

10.4-10.8 KeyMACRO does not interfere with your work/web surfing sessions and does not pollute your keystrokes.

KeyMACRO records each keystroke as a highly compressed Keyword and stores it along with timestamp and a multimedia description. KeyMACRO records mouse and cursor positions and mouse clicks as well. KeyMACRO supports almost all web browsers (Internet Explorer, Firefox, Safari, Opera, Chrome etc.) and many applications (Word, Notepad, Outlook, Excel, Photoshop, etc.) KeyMACRO stores data for 14 days and has a built-in scheduler. KeyMACRO supports auto-start

---

when you log in to the computer. It records the keystrokes for 14 days without you having to do anything. Once it is activated, KeyMACRO will run automatically when you log in to 81e310abbf
