Two major releases of Photoshop, version 9 and version CS (or Creative Suite), are available, and they offer updates and more features than the previous versions. The most advanced Photoshop version is CS6, but it also has substantial competition from other programs, including Lightroom and Elements. The following guides will teach you how to use Photoshop to create beautiful images that will impress your friends and family. After each section, you'll find a list of references to Web sites that explain each feature in more detail. If you have any questions about using Photoshop, you'll want to review the features described in the same order as the tutorials so you can come back to them when you need to. Getting Started Photoshop CS6 and Photoshop Elements 13 have many improvements over previous versions, but even older versions were a big improvement over older versions of Photoshop. Photoshop includes two features that you can use immediately to improve the quality of an image: the Curves and Levels dialogs, and the Filter Gallery. The Curves and Levels dialogs are described in the next section. The Filter Gallery is described on Editing and Special Effects in Multimedia Basics. The older tools included in the Filter Gallery can be found in Photoshop Elements 12. To get to the Filter Gallery, choose Filters⇒Filters⇒Basic and make sure the Filter Gallery option is checked in the dialog that appears. The Filter Gallery in Photoshop CS6 and Photoshop Elements 13 is the same as the one in Elements 12 except that the Advanced option is not available when you first choose Filters⇒Basic. The most important improvements in Photoshop CS6 and Photoshop Elements 13 are in the Colors dialog, which is described in the next section. ### What's New in the?

The song has seen Jim James, and Bill Kirchenbauer, on vocals; on drums, James is joined by former members of The Elephant Six Collective's band for a song arranged by James's The Revivalists. In a live video shot at the latest in the band's touring cycle, The Gaslight Anthem announced the new music and played the first song, "This Song Is for Everyone." In typical fashion, the song is a sharp contrast to the band's past hits and is moody, with strings and James's falsetto floating on the air. "This Song Is for Everyone" joins the band's extensive catalog of previously released songs on the aforementioned extended play Songs From a Room, and the quartet has also teased a new song titled "Nostalgic When I Woke Up." A new album will come later this year. "This Song Is for Everyone" was recorded as part of a wider project at Kirk Joseph's East River Studios. The credits on the EP also note other contributors and engineers, including Brandon Saller and Ben Rubin, who previously worked with The Gaslight Anthem. The recording was overseen by Joseph, who also co-produced the EP with Kevin Briggs and James. The Gaslight Anthem have a long musical history. They first came into the spotlight in 2007 as one half of the indie rock outfit, The Bouncing Souls, but split in 2012, after which James and Benjamin Freedman formed The Revivalists and debuted "Hold On" and "You Have Got The Love," the latter of which became the band's first major label release. In 2012, they joined Pearl Jam on their touring campaign. In 2013, they played three shows at New York's prestigious Radio City Music Hall. Last fall, they played the first two years of their "Fare Thee Well" reunion in a tour dedicated entirely to their hit album Get Hurt, and have been on a long win streak with fans. This year, The Gaslight Anthem embark on a joint tour with Bright Eyes. That same year, James's debut solo album James James was released in October.
