Has this ever happened to you? Your partner calls you but you can't hear. You call him and ask him where he is. He says he can't hear your voice either. You ask him to talk louder. He does, and you can hear him pretty clearly, only now his voice is so loud that you think it's coming through the speaker next to you. You're in two minds. collapse after a few days of stress. Fortunately I found a way to cope with the fatigue. And it wasn't anything physical at all. Almost everyone experiences fatigue of one
