Accounts is a software utility that enables you to manage your recipes, by storing them in a friendly and easy-to-use environment, from where they can be quickly retrieved when you need them. In addition, you can also separately add the main ingredients for each one, to distinguish them from the rest of the preparation process. In case you are running a restaurant or you

---

intend on hosting a dinner party, the application enables you to use its calendar component to properly plan and schedule your routine. In addition, you can also set up reminders to alert you about shopping for ingredients or to inform you about the arrival of your guests. These activities can be added as events inside the utility and you can view all of them on the provided

---

calendar. Export the recipes as HTML documents or print them on paper If you want to transfer your recipes between computers, or you want to send them to your friends over the Internet, you can export them to a variety of file formats, including RTF, TXT or HTML. Due to the small size, they can easily be attached to emails or copied on an USB flash drive. Furthermore, to

---

avoid losing your data, you can perform backup operations whenever you want, using application's built-in capabilities. Every recipe, event or calendar page can be printed on paper, using a variety of templates and styles. In addition, the recipe text can be fully formatted using the included text editor, which also allows you to add images, tables and even hyperlinks, as

---

well as multiple alignment options and bullet lists.

Software Requirements OS:  
Windows 10, 8.1, 8 CPU: 1 GHz or faster RAM: 2 GB or more  
Hard Disk Space: 120 MB or more  
Note: The free trial version of the application may only support one recipe. Please Note: You should be aware that the free trial version of the application may only support one recipe.
