Based on the popular Fate/EXTELLA, Elden Ring: La Cosmo Dyna is a fantasy action RPG in which you take the role of one of three main characters: Flynn, Seleta, and the Grahf elite. Each character is born as an apprentice at the hands of the master summoner, Celica, and is led by one of the Elden gods. As an apprentice summoner, do not rest until you have mastered your powers to become an Elden Lord. • Fight with a Variety of Weaponry and Armor Fight with various types of weaponry, such as swords, maces, bows, and spears, as well as a wide variety of armors. There are also a variety of weapons and armors that can be mixed and matched. • One-of-a-Kind Online Battles Enjoy a one-of-a-kind online battle system that features an all-new Online Battle feature and an even bigger circle map than the Adventure Mode. • Various Classifications of Characters and Enemies As a summoner apprentice, you fight with a variety of different weapons, armor, and even magic. As your level increases, you can customize your character and create your own unique character class. The characters and enemy formations will also change as you move further through the game. • A High Density of Player Interaction Solve numerous special cases that change every time you play. Enjoy an experience as if it were a real RPG in which your progress is completely synchronized.

The OMNI2 framework predicts strong longitudinal structure in solar wind interplanetary turbulence driven by outgoing Alfvén waves that have low magnetic field strengths. Interactions between Alfvén waves in the poloidal plane and the in-plane magnetosonic mode in the fast magnetosonic mode can act to generate current structures in the poloidal plane, which has been observed in slow solar wind observations. This suggests that the wave-current interactions are an important component of 3D solar wind turbulence. We would like to thank the IPS and EPS teams for their help and support for this work. I am trying to find all maximal ideals in $\mathbb{C}[x, y]$, but I am having trouble. I know that the zero ideal is a maximal ideal, and for any non-zero ideal there exists some polynomial $p \in \mathbb{C}[x, y]$ s.t. $p \in \mathfrak{m}$. If the ideal is principal, so that $\mathfrak{m} = (p)$,
