»(For a survey of the game in Korean, please visit Online multiplayer has grown evermore popular, and a growing number of netizens go head to head in various online games. It also includes all of the action RPG genre's convenience features such as a real-time action, a real-time action RPG genre, a role-playing game, a fast-paced action, etc. Also, just like the other game genres, such as the action RPG genre, "full RPG", it has one of the best online player interactions in the fantasy RPG genre. I have to admit that the point of view of the game creates a sense of peacefulness. However, this sense of peace is so strongly suggested that it may lead to people simply playing for entertainment, rather than playing in a state of intense fantasy. Acquire itself is advertising with the phrase, "Enough a bit of fantasy, take control!" In other words, its point of view as a game is a strong fantasy RPG genre, but it is safe for the player to decide to play at the point of view of "Let's just play it out." \* "It's just a fantasy RPG genre" "It's just a bff6bb2d33
