You are the centre of attention. That has never been more evident than in FIFA, with all eyes being on you. From the moment you press start on a match, your actions will have impact on the play. All eyes are on you. Move freely and quickly to anticipate, command and complete – with as much intelligence as you have. Every ball will change direction and pace depending on your input. If you build your play on the run, you can explore the field like never before. If you let your instincts take over and play to your strengths, the world is at your feet. FIFA's 'intelligent' artificial intelligence sees you and knows what you want to do, and how to deliver it. And it does so for every single player, at every single moment. Let yourself be guided. Let your instincts take over and go for glory. In FIFA, there are no "good" or "bad" decisions. Your decisions make the difference. Let your instincts take over. Go for glory. Features: HyperMotion All eyes are on you: Interaction in every game. AI that takes every single action into account. AI that connects to you, right from start of the match. Control every ball and every move, from your run to your throw. The smartest AI in EA SPORTS FIFA. Player 2.0 2.0 is the most intelligent, responsive and adaptable EA SPORTS FIFA lineup yet. Experience a series of new changes, including this year's most intelligent AI. Developed using gameplay data from over 100 high-intensity football matches, with AI behaviours tuned by EA SPORTS. Showcases new tactics, formations, substitutions and substitutions for players. Player 2.0 is accessible to any player level. Player Focus Player 2.0's new Spotlight Player system focuses on the strengths of the player, making it even easier to shine. Morphologic and Functional Characterization of Endothelial Cells In Vitro. Cell culture models and in vitro studies of endothelial cells have been established over the years to study endothelial cell development and activation to study vascular diseases. In this chapter, we describe the general protocol, as well as the widely employed methods for preparing the endothelial

EA SPORTS FIFA brings to life the beautiful game, taking the most popular sport in the world, football/soccer, and combining it with the most realistic football physics in history. Players can now experience the speed, power and physicality of the game at a level never before available. This year, EA SPORTS FIFA 22 takes full advantage of the power of the Next-Gen consoles. The PlayStation®4 and Xbox One feature next-generation technology including more than 25% faster graphics, twice the amount of RAM, and enhanced visual and audio capabilities. More than just a graphical upgrade, these new consoles create more realistic game play based on key elements of the real world like Player Trajectories and Ball Physics. The Next-Gen experience is enhanced with refined, intuitive controls and movements. Dynamic player attributes and seasons make each player feel unique. The addition of the All-Star Team and dynamic Player Drafts add a level of strategy never before seen in the franchise. EA SPORTS FIFA 22 is the first-ever sports game in the history of the world to include a Pro-Licensed Spanish language license. With 29 leagues in Mexico, the United States, and Spain, this license will allow players to engage in the beautiful game wherever they are around the world. New features for all modes: Ultimate Team™: All the power of this marquee mode on the PlayStation 4 and Xbox One, in addition to a longer commentary. Matchday: FIFA Ultimate Team: The second season of dynamic gameplay with Rivals, new Club Tournaments, and Draft Picks. New Control System for the Gameplay: All-new Touchpad controls for the PlayStation 4 and Xbox One that offer flexibility and responsiveness on the field. FIFA Ultimate Team™: The short-list and Draft Picks now have an even bigger role to play in the tactical planning and formation selection in Custom Matches. FIFA Mobile: Re-imagined in-game experience with 'Wizards of the Ball' mini-game, AR effects, and a simplified setup menu. FIFA Seasons: Improved Team & Squad Management: Players can now look at formation and tactics for up to four weeks and months at a time with simple toggling through the menus. Ball Physics: Players will now experience the true power of the ball as it impacts on the ground, reacting to the force of the shot. Player Trajectories: In addition to the visual impact, these new visual
