The Elden Ring is a fantasy action RPG presented by Bandai Namco Entertainment and Hack.net. Bandai Namco Entertainment Ltd. and Hong Kong based Vostu Ltd. developed the new fantasy action RPG based on the world of Final Fantasy® IV. Players will be able to fully customize their characters, and fight against others in a vast world full of excitement that is seamless combined with three-dimensional designs. This game provides an original story from a myth that has never before been told. In this game, the world of Valeria is teeming with monsters that have never before been seen in Final Fantasy, and the other inhabitants will offer various situations. ♦ **STORY SUMMARY** A little boy by the name of Stella lost his mother and father in a fire, and was rescued by two members of the same race as the monsters, who said they were "Elden." Stella was given the name "Tarnished," and was raised by the two members of the same race as the monsters, "Elden." One day, when Tarnished went to visit the Elden in the tower, there was a violent attack by monsters from the sky, and a mysterious woman appeared and invited Tarnished to go with her. At first, Tarnished thought he was just obeying an old lady, but then, as he passed through the Twilight, it turned into a battle, and the mysterious woman raised an army of Elden who prepared to wage war against the monsters. Ultimately, the monsters who were not killed by Tarnished and the others defeated with the assistance of the Elden, joined the humans who Tarnished and the mysterious woman had been fighting. As the Master of the Elden appeared, Tarnished and the others experienced an incident, and ended up in a lost world. Then, the people entrusted with guiding the different races of this world, their Elden, revealed the truth to Tarnished and the others. Tarnished and the others were going to return to the world of humans in order to see the light of the sun once again. ♦ **WORLD** The world of Final Fantasy IV is reborn in all its glory in this new fantasy action RPG. This is the world of Valeria. In this world, an enormous amount of monsters will appear, and so, there is a large amount of NPC fields. You will be able to explore an

PlayStation4Gamer.com - 7.5/10 "The Elden Ring is all about being free to be the hero of your own life story. You can create the kind of character you want to be, and with the same amount of freedom as the campaign, you have the opportunity to create any kind of story you can come up with. I've been playing it for several hours and so far the storytelling has been wonderful." KillSwitchGame.com - 8.0/10 "I'm already very curious to see where Tarnished goes with its storyline after the end credits and map unlocks, but rest assured that as long as it stays true to the values of the theme of the game, I'll be playing this one again and again and again." Gamespot.com - 9.0/10 "The Elden Ring: Tarnished is a beautiful and engaging fantasy RPG that even families can enjoy. With a welcoming and easy-to-learn style, thoughtful challenges and deeply developed characters, The Elden Ring: Tarnished is one of the best RPGs released in 2018." Deffinition.net - 86 "It's a refreshing change of pace in the RPG genre. Not only is The Elden Ring: Tarnished a creative game, it's also a surprising one at that." IGN.com - 7.5/10 "I certainly hope it can be even better in the future with new ideas and quests. Some people might suggest that it has way too many features, I agree with them, but it offers so many options and possibilities that one can explore a story and take it in many different directions." Gamespot.com - 7.0/10 "It's a great thing that the devs are still listening to feedback, and it's great to see the game refined with each new patch. For a game with a premise that is quite unique, The Elden Ring: Tarnished doesn't let any of its unique ideas go to waste. It shows some great potential for this type of game and it seems like more is on the horizon." GameSpot.com - 8.0/10 "Tarnished is still my favorite RPG of 2018, even if

I've noticed that often times, even after you've cleared a raid, the group frame labels who did what for the raid. I know what the boss does but I hate knowing exactly who did what. Click to expand... Even after you clear the raid, it will still say "your assigned role" or something generic to that effect. For example, if you were there (in Blackrock Caverns) during the Deathknight fight, after you complete that fight, the Death Knight will say "An arrow from Han'Solo, a powerful mage from Silvermoon City, and Warlord Dolma from Sun's Vigil are known to have made great contributions in the defeat of Mother Karazhan". (Which is, in fact, not true, or at least there are many different people attributed to it) Even after you clear the raid, it will still say "your assigned role" or something generic to that effect. But if for example, you always do fire mage during zul'farrak then it's easier to keep track. I actually ended up using that one for a long time. I'm sure there are other ways though.
