"FeedGhost Full Crack allows you to enjoy a stream of information that contains all sorts of dynamic content, that gives you an overview of all important news on your computer. FeedGhost Full Crack is a trustworthy RSS reader, which allows you to work quickly, to find the right information on the Web and to organize the news that you read in your own way. With FeedGhost Crack Free Download you can pick up news from the main global news portals in many languages. You can easily mark links as read, delete and refresh news, and maintain a clear view on your feeds. News you mark as read can be found in the recently read section. With FeedGhost Serial Key, you can subscribe to news feeds directly from websites and newsletters, mark particular news as starred, find as well as export subscriptions to OPML and RSS files, and add bookmarks to websites." FOUNDDING GUIDANCE FeedGhost Crack For Windows is my first RSS reader. I've been using it for nearly three months now. During this time, I've checked some other RSS readers, some of which have a very complete interface and some others that have less functions. FeedGhost Crack overcomes all the barriers because of its clear interface and simple to use navigation. I could configure it within a few minutes and it was easy to set up my preferred reading style. You can easily share your views with your friends, and also bookmark webpages, so you can easily visit them later. FEATURES Easily manage and organize your subscriptions Display all RSS feeds, OPML, or RSS/ATOM subscriptions from different websites. Add a custom RSS feed from a website, email message, or downloaded file. Set the desired reading mode - river of news, list of articles, or combination of both. Add a pre-defined list of news feeds - the feeds are sorted according to their popularity. Display recent articles you haven't read yet. Check the number of unread articles you have or "star" articles that you consider important. Use an "undo" button to quickly find and delete articles you no longer wish to read. Maintain a list of favorite websites, so you can enjoy them later. Use the built-in web browser and websites directly from the interface. View article summary when you hover the mouse cursor on an article. Add tags to your favorite news articles. Automatically open the feed in the folder you are currently viewing. Save link subscriptions for fast access later.
