To bring out the online community spirit of the Untamed Lands, we've designed a different type of game. You've set foot in a world where your destination is your only goal. To survive, you must work together with others to achieve a common purpose. The great adventure between you and others forms bonds that connect you to friends in the region. A Vast World Full of Excitement. The world of Tarnished is filled with various places to explore and filled with amazing creatures to fight. You can explore the vast landscape as you please, whether it be walking, horseback riding, or traveling by boat. In order to reach different places, you can travel via various methods. You can walk, ride a horse, or, for a faster, more convenient way, you can ride a magic carpet. You can ride a magic carpet from the beginning of the game, and you can come back to an earlier point in the game at any time. Upon reaching a certain point in the game, your travel method changes to an airplane, which allows you to travel to other parts of the map. This world is also full of dungeons full of various monsters. In order to take out these monsters and survive, you can use your own magic or the help of a paladin. By collecting materials and crafting various weapons and armor, you can customize your character. Upgrading weapons and armor will make them stronger, and new and powerful weapons can be found in the dungeon. Your basic stats will affect whether you survive or die. You can attack with basic weapons, which deal damage, to attack monsters, and you can increase your attack power by equipping powerful weapons. You can also equip the new MAGIC VEST, which will increase your damage bonus. Enhancing your Magic Vest will decrease the STR and DEX required to craft items and weapons, and the MAGIC VEST will increase the STR bonus obtained through enhancement. Creating your Own Character. You can freely combine the weapons, armor, and magic that you equip. The powerful sword and silver armor will help you defeat monsters. It's easy to find an answer to your problem with a shield that increases your DEF. As your STR grows bigger, your heavy armor will become more and more powerful. The armor that has a black stripe means that it is associated with a special type of magic.
