I love the concept of this game and I'm so glad I bought it. This is the first game I've ever played with my 3 friends that are still in college. They were so disappointed to have played it, but they loved the other 3 books in the series so much. This game is awesome. It has a good story line, and is very interesting. I love how there are whole building that you can build, and there is different types of boards in the game to play with. And the game is 4 hours long, not 5 or 6. Can't wait to play it with my friends in college. I own all of the Talisman games, and this one will definitely get me to buy the next one. The playability of the game is pretty bad because it is supposed to be a cooperative game where all of

## What's new in Work Trip:

**Ravenland is a fantasy novel written by American author Robert McCammon, first published in 1990 by Bantam Books. Plot summary**

**The protagonist is a young French poacher named Jean Antoine St. Landry. Although he is generally pleasant and polite, Jean's father left him his debts and he is secretly longing for adventure. He has a grudge against the wealthy, aristocratic Kennedy family for their role in the death of his brother Martin, whom he avenges by breaking the head of the Kennedy chauffeur and friend, Claude. Abandoned by his family, Jean is sent away to a hunter's school in the Scottish Highlands, although he flees and becomes a vagabond, sleeping under bridges. Jean meets a mountain hermit named Robert Raymond and is granted a vision of the evil Raven coming to Earth in search of a human sacrifice. This leads Jean into a number of adventures, which include meeting the beautiful, medicated Mademoiselle Simard, being abducted by Jonathon Axminster, meeting the mannequin-admirer Lambert Sims, and finally coming face to face with the Raven himself.**

**Characters**

**Jean Antoine St. Landry:** The protagonist of Ravenland, and the son of a stable boy who moved his family into gentry life in the fork-edged, iron-handful city of Paris. His father passed away when his son was young, and he lives with his mother, a strict, codified, controlling woman who is equally disliked by Jean Antoine's father's previous mistress, who is the fiancée of his brother's killer.

**Robert Raymond:** The hermit who eventually coaxes Jean Antoine to the Big Story. Formerly a hunter, he becomes interested in myth and legend, places a great store in meditation, and begins to realise his own mortality through a series of dreams.

**Larry Axminster:** Jean Antoine's long-time friend and companion when he was not in the gentry. Larry is the son of a well-off, well-received family, and spends his time writing glam rock, which he refers to as heroin, from his home in Shoreditch. When he encourages Jean Antoine to join him in some of his adventures, his family cuts him

"If Dorothy looked like this," she said, holding the camera to her face. "I was wondering," Alice said to the director, "how I should act in this scene." The only clue to the eradication of the disease is found at the crime scenes, where she appears every time: "Alice, you have the last match". We sent our hero to do what's right, even if it meant venturing to the huge island of Westerners where she has never been before. Is she up to the challenge, or will she fall down the rabbit hole into a nightmare? Who's trying to kill Alice now? Questions for the Answer: Possible Answers: A) In order to play Dorothy's role, a new scene will be added to the game.
