---

The basis of the gameplay is shifting the control scheme by having a strong left stick and button controls for more precise controlled on-ball movements. Full dribble controls are available via the left analog stick. Additionally, a new “one-more pass” feature enables users to control the timing of players’ passes with a more precise rhythm and pace. The ball physics were enhanced to represent accurate behaviour on the pitch, with the ability to control and kick the ball aerodynamically, and shoot on the half-volley or under heavy pressure. The on-pitch engine uses player positions in the real-life and is then used to simulate realistic behavior of players, enhancing performance in all key football actions. The on-pitch engine can also calculate players’ stamina levels by measuring their fatigue on the pitch, affecting the way you can play and the way your teammates interact with you. The camera system is also improved, with better camera angles in the on-pitch engine and better placement of players in the shots. Multiplayer mode plays out very similar to FIFA 19 Online Pass, but focuses on a more pure and tactical mode. You can play against AI or other users at FIFA 22’s multiplayer mode at your own private or local multiplayer games online mode. Online mode also

---

provides a variety of modes for group, season, tournaments and league play. FIFA 22 also features “Player DNA”, which is a new contextual system that allows you to customize your own player avatar to match the way you want to play. The depth of the customization system allows you to create an avatar that looks and plays like you to help you truly be yourself in FIFA 22. On October 27, 2019, EA launched FIFA 22 “Ultimate Team” featuring 649 players, including an opportunity to earn exclusive Superstar Edition packaging items and golden editions.

### **Features Key:**

- FIFA 22 introduces "HyperMotion Technology," which uses motion capture data collected from 22 real-life players playing a complete, high-intensity football match in motion capture suits. The data collected from player movements, tackles, aerial duels and on-ball actions is used to power FIFA 22 gameplay.
- Using the engine's AI has been improved, along with gameplay physics and collisions.
- Football in FIFA is faster and tighter thanks to the addition of the new "Pitch Engine," which models the surface of the pitch and creates an authentic feeling of ball contact and fast, vibrant gameplay.
- FIFA 22 introduces a new control scheme for the first time, featuring improved controls, improved movement, accelerated player speeds, and enhanced ball control. Players who prefer the classic control scheme can still play with this new scheme, or both control schemes can be used in tandem.
- FIFA Ultimate Team, the game's new in-game mode, allows you to collect, customise and manage legendary football clubs, much like the Franchise Mode of previous games, and compete with your friends for Ultimate Glory. The challenge is now more intense - use your genius to build the ultimate team of footballers.
- The new Virtual Pro System (VPS) rewards you for elite skills through bespoke rewards such as club crests, team sheets and uniform kits, earned by spending real money and gameplay points on players.
- Compete to be the best, win the grand prize of winning the EPL and earn a chance to play for your Premier League team. Teams including Manchester United, Leicester City, Chelsea, Liverpool, Everton, Manchester City, West Ham and Leeds have all jumped onboard the in-game rewards campaign.
  - Name your club and kit from a select choice of authentic club kits, or craft your own unique kits using materials from around the world. All kits are available to customise in-game.

- 
- FIFA's official naming and branding guidelines are back for the first time in 11 years. •
  - The Journeyman Mode returns for a second season, welcoming brand new local and regional clubs.
  - FIFA 22 introduces the Championship: The newly formed second tier of English leagues, chock-full with dramatically improved stadiums and equipment, with

Relive the team's greatest moments in FIFA Ultimate Team, now updated for FIFA 22, and take your Pro back into one of the most beloved and successful game modes, providing players with a new home and improved gameplay experience. Be a Pro - New Off-the-ball Intelligence movement system (Dynamic Dribbling) Personal Highlights FIFA® 2017 gave players the choice of play with the ball as either a skilful and technical Player or a skillful and relentless Striker. A total of 17 National Teams will feature in FIFA® 2017, including Brazil, Colombia, England, France, Germany, Greece, Japan, Mexico, Mexico, Netherlands, Portugal, Russia, Spain, Sweden, Switzerland, Turkey and

---

the United States. The game offers players the option to choose their preferred way of playing in solo mode, in co-op and online modes, or in a combination of the three. A new guide will help them through their journey in career mode, and the new “My Team” feature will also allow Pro's to express their individuality. FIFA® 2017 will be available on PlayStation 4, Xbox One, PC and Nintendo Switch.

Vibrational spectroscopic method for investigation of the contact angle between a liquid and a solid surface. A new vibrational spectroscopic method, based on the use of the second-harmonic signal of liquid, is proposed in the investigation of the contact angle between a liquid and a solid surface. The applicability of this technique is verified on the case of water in contact with Pt(110). It is shown that the experimental data can be interpreted in terms of an anisotropic roughness of the Pt(110) surface.

Pair of boys who roamed the streets of Manchester looking to score 'hit' on 'wheels' and 'kipper' Two boys are to be charged in connection with the death of a pensioner, whose body was found in the area of Salford. A pair of boys under

---

the age of 16 were recently roaming the streets of Manchester looking for "hit" on the head, "kipper" and other drugs. Two are now to be charged in connection with the death of a man, whose body was discovered in the area of Salford in January. Police recovered a handgun and drugs from the Salford area in the days after the body was found, but are yet to name the victim.

### **What's new in Fifa 22:**

- **Fluid Football**
  - **Game features new physics to deliver unprecedented finesse. Players will make less contact with the ball when receiving it, and their impact will carry through the ball's flight and movement more realistically. Players will also receive less perfect passes from teammates as a direct result of this new physics.**
  - **Pressure situations, such as balls impacting the line, will be more accurate. Goalkeeper dives will be more authentic and realistic, to create a more authentic experience in all pressure situations.**
  - **Fluid motion**
    - **Players will perform less unnatural ball touches (clipping) as a result of an overhaul in the game's physics.**
    - **Bullfighting, drag dribbling moves, and diving are now more realistic, as a result of the ball physics change.**

- 
- **Relaxed Kicking**
    - **Goalkeepers will kick the ball more naturally when they are relaxed, which will affect headers, crosses, and corners. You'll see the time it takes for the ball to arrive on the goal and the goalkeeper is able to distribute and stop the ball more efficiently.**
    - **All players will also see their timing of passes improve, making them more accurate, and less prone to penalties**
  - **Vision Control**
    - **Pitch-side cameras will track players with more precision.**
    - **Goalkeepers will push, dive, and throw their hands into the air more realistically.**
    - **New game features will increase player detection.**
