## VIVID WORKSHOPDATA ATI 12.1 118

the heidelberg team entered the challenge among some of the biggest names in 3d graphics and animation and won a leading position in the international competition on screen-based user experience (vbui 2012). this is the first time this challenge has been held within the framework of the corporate vivid technology week; the event was recently designated official bundesliga location by the board of directors. one of the most successful conferences in the field of urban mobility was held in november 2013 in düsseldorf at the new 24- hour traffic center of the rhein-main-verkehrsverbund (rmv). we would like to thank all event participants for their interest in the conference and for the high degree of interest they showed and the various feedbacks. vivid technology week graz celebrated its second edition in november 2013. the siemens business unit in graz built on the success of the first year, and the event moved from the scc campus to the boschplatz in central graz. we would like to thank the event partners for the close collaboration. in conjunction with the 19th german book fair (deutsche buchmesse), the vivid team produced an exhibition, titled 'the power of imaging - the siemens transport center'. the exhibition presented six theme areas: digitalisation, medical imaging, automotive, energy, security and space-related topics. the platforms explained how siemens and other industry players (oems, suppliers and distribution partners) use these data-intensive technologies in passenger cars, industrial trucks, oil and gas equipment and ships and delivered an insight into how they are implemented.
