## Allison Doc 14 License Keygen

the following languages are already included in allison: english, french, spanish, italian, swedish, german, and dutch. if you want to add a language, it is usually a good idea to select the most used one in your application, in order to make it easier for users to understand. and, in any case, you will need to update allison's language to the selected language and speak-at-speed option in order to get it to work with asterisk. now that you have a basic understanding of allison, we're ready to use her. to get started, you will need to download cepstral. this is all well and good, but we're going to assume that you are here in order to get your hands on this allison voiceforge voice for asterisk, and not for all of the other cool things we can do with it. if you are interested in using cepstral to work with asterisk, the best way to get it is through the allison 2.0 library or the allison audio assets. if you are interested in using the allison voiceforge technology in your own commercial projects, you can get a free copy of the allison voiceforge voice from cepstral here. you can also visit our support forum to find answers to questions about using the allison voiceforge voice. you can find all the information you need in there, including links to instructions on how to use this voice in your own projects. you can also download the allison voiceforge voice from cepstral's website. this is the same file that you downloaded when you first installed cepstral and set up this voice. it was named allison\_voice.zip and was located in the lib/ folder of the cepstral installation. you can find this file by going to the allison voiceforge library in the cepstral folder and right-clicking on the library and choosing download from the pop-up menu.
