Blue River is an action RPG with a lot of RPG elements. I'm not sure about the genres, but one thing is for sure that there is a story behind the game and you can get an experience which makes it worth playing. The game has been developed by Cypronia and publisher Microids, and it is available on PC, Xbox One, and Playstation 4. It is a role-playing game that focuses on a mature storyline, detailed characters, and features a challenging gameplay. The story revolves around a warrior who is destined to be called Blue River after his mission to fight and protect the forest that he lives in. On the other hand, he is not alone in that endeavor as he is accompanied by others in his quest to be the protector of that forest. The gameplay of Blue River is a bit different as it revolves around real-time combat and a lot of RPG elements. The game also has plenty of features that make it feel like an RPG experience. For instance, you can have a full inventory with various accessories that you can use to enhance your powers and abilities. The game is also pretty complex. It offers a large number of customization options and different difficulty settings.
